WORK EXPERIENCE

Procureezy

April. 2024 – Present

Co-Founder & CTPO

Paris, France

- [Procureezy.com](#) is AI sourcing copilot for hardware engineers to tackle the thousands of hours lost in sourcing per engineer per year.
- Designed, developed and iterated with beta testers to build a procurement SaaS tool ([platform.procureezy.com](#)) to help hardware engineers collaborate. Also led demo calls to sell the product to potential leads (current sales pipeline at 85K\$).
 - **Stack:** Next.js, TypeScript, TailwindCSS, Shadcn/ui, Nuqs, HonoJS, OpenAPI, Neon, DrizzleORM, Zod, Clerk, Vercel, PostHog
- Designed and developed an AI search engine ([search.procureezy.com](#)) used by +50 hardware engineers to source hardware parts efficiently.
 - **Stack:** React, Typescript, HonoJS, Bun, Docker, Zod, Better Auth, Posthog, Langfuse, LanggraphJS, Vercel AI SDK, Python

CocktailAndDinner

Oct. 2021 – Dec. 2023

Founder

New York City, New York
